Experience

Aug 2023 - 2024

KryptoLearn

Front-End Web Developer (Freelance)

A Crypto Exchange like Binance, Bybit, Coinbase, etc. My journey here began as a freelancer on Fiverr, where I first worked on the company's landing page. Recognizing the value of my work, I transitioned to a Frontend Dev of the company.
Tech Stack: JavaScript, VueJS, TailwindCSS, HTML5, CSS3, Git, Github, Docker.
Others: Figma & other designing tools for the UI.

May 2023 - Oct 2023

Koala Customer Care

Front-End Web Developer (Full-time)

A Customer Service Provider based out of Vancouver, BC, Canada. My journey here began as a freelancer on Upwork. Recognizing the value of our collaboration, I transitioned to a full-time role as a Frontend Dev.
Tech Stack: HTML5, CSS3, JavaScript.
Others: Photoshop Mocking & other designing tools for the UI.

Apr 2023 - Present

Fiverr, Upwork

Front-End Web Developer (Freelance)

My journey in Web Application Development took its initial steps on the Fiverr platform. It was on April 22, 2023, that I secured my first order—a significant milestone that marked the genesis of my career. Since then, I've undertaken numerous projects, each an opportunity to refine my craft. My Upwork journey commenced on May 4th, 2023, as I secured my inaugural contract with a company. Embracing the opportunity, I enthusiastically accepted the proposal, marking the beginning of a promising chapter in my freelance career.
Tech Stack: JavaScript, TypeScript, VueJS, TailwindCSS, HTML5, CSS3.
Others: Figma & other designing tools for the UI.
